

UNLOCK SAVINGS, DRIVE EFFICIENCY,
CONTRIBUTE TO A SUSTAINABLE FUTURE

Industrial Conservation Initiative (ICI) Program

The Industrial Conservation Initiative (ICI) program is one of two strategic initiatives in Ontario that rewards large electricity consumers for reducing their electricity demand during the top 5 coincident peak periods. By doing so, businesses contribute to the electrical grid's stability and benefit from financial incentives and reduced electricity costs.

ELIGIBILITY CRITERIA

Individuals who qualify for inclusion in the Industrial Conservation Initiative and actively engage in the program are designated as Class A customers. Their contribution to the Global Adjustment (GA) is determined by their Peak Demand Factor (PDF).

- Customers with average monthly maximum hourly demand greater than 500 kW and less than 1 MW in certain manufacturing and industrial sectors
- Class B Electricity Storage Facilities

HOW TO SUCCEED

To succeed in the ICI program, it's crucial to focus on your curtailment action plan. What does this involve? It includes identifying loads to shift, documenting your load inventory, and more. If you're unsure about curtailment, rest assured that we guarantee your ability to do it and can assist you in this essential step necessary to fully benefit from the ICI program.

KEY FEATURES AND BENEFITS:

Peak Demand Management

- Participate in reducing electricity demand during identified peak periods.
- Contribute to the stability and reliability of the electrical grid.

Global Adjustment Reduction

- Connect with the Global Adjustment mechanism to lower your share of electricity costs.
- Unlock potential savings and improve cost-efficiency.

Financial Incentives

- Receive financial incentives for actively participating in peak demand reduction.
- Optimize your energy costs and enhance your competitive edge.

EDGECOM ENERGY

Edgecom Energy is an award-winning and leading expert in the Industrial Conservation Initiative (ICI) Program, successfully assisting numerous companies in enrolling and optimizing their energy consumption. Contact Us today to get started with the ICI Program and learn how to get substantial savings on Global Adjustment costs.
