

LESS CURTAILMENTS, MORE SAVINGS

pTrack[®] Alberta

Peace of Mind Not Peaks on Your Mind

Alberta's first AI-powered peak prediction service. Averaging less than 5 curtailment calls a month, so you can get the most out of the AESO's DTS program.

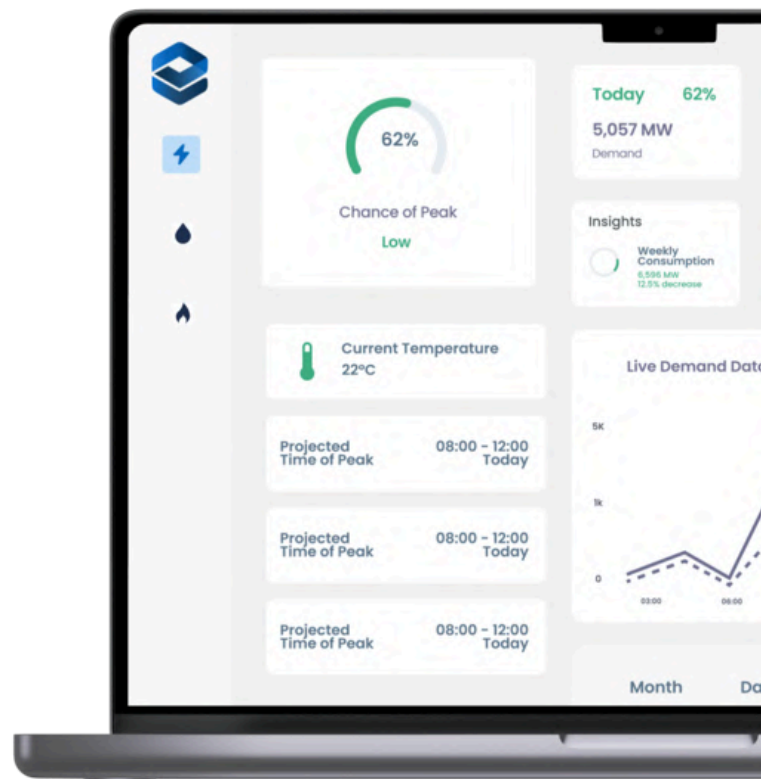

POTENTIAL SAVINGS

The amount of savings curated is ultimately up to you, the more you are able to curtail the more you can save.

DTS savings up to

\$133,968

per MW per year of curtailment.

AI-POWERED

pTrack® algorithms are best in market at predicting peaks and providing more insights and data to our customers, and will only continue to get better.

REAL-TIME

Constant updates of pTrack® Forecasts, AESO Forecast Demand, and DTS Pricing, so you can make the most timely decisions.

ONE PORTAL

Avoid headaches around scattered data and keep everything in one place.

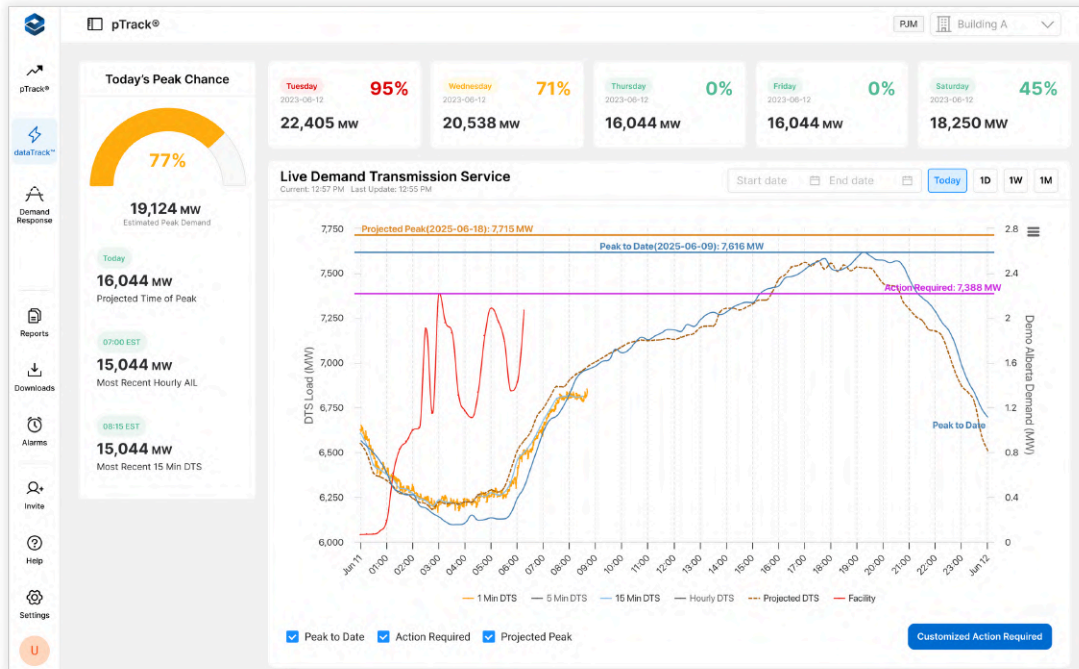

MORE REVENUE

Optimize energy use, mitigate costly spikes in electricity costs, and realize significant cost savings in the long run.

NEVER MISS A PEAK

To monitor your facility's real-time energy consumption, you can just log in to Edgecom Energy's online portal and instantly see when cutrailment action is required.

ABOUT US

At Edgecom Energy, we empower large energy consumers to take control of their energy costs and reduce emissions by harnessing the power of IoT and AI solutions. Our innovative technology helps you optimize energy usage, save money, and contribute to a greener, more sustainable future.
